CONVIS

INVITATION TO THE 3RD TRAINING ON BIOSECURITY IN FARMS AND APPLICATION OF THE BIOCHECK TOOL

DATE: October 29 from 18:30 to 21:45

ADDRESS: ALVA premises, 2nd floor Room STR B201 Am Bongert 7 Rue Thomas Edison, 1445 Strassen

TRAINER THEORETICAL AND PRACTICAL PART: Dr. Jeroen DEWULF, Full Professor of Veterinary Epidemiology, University of Ghent (language: English)

ADMINISTRATION PART AND FEEDBACK FROM THE USERS: ALVA, LGP and Agriculture Chamber

TARGET AUDIENCE: livestock veterinary practitioners in the Luxembourg

AGENDA

I. PROJECT OVERVIEW AND FEEDBACK FROM USERS

1. Statement from ALVA
2. Statements from veterinarians and farmers using Biocheck in Luxembourg

II. THEORETICAL PART

1. Development of the concept of biosecurity in the prevention of epidemics, the reduction of antibiotics and antibiotic resistance
2. Presentation of scientific findings of the impact of biosecurity measures on herd management (morbidity and mortality rate of the herd)
3. Advise on prioritisation for improved external and internal biosecurity based on the conclusions of the annual reports and how to motivate farmers to implement biosecurity measures on the farm.
4. Introduction of the Biocheck tool and demonstration of the workspaces (in the bovine context but also pork and poultry)

III. PRACTICAL PART

1. Demonstration of the practical use of the tool and hands-on training regarding checklists and improved recommendation reports with the participants having a laptop

IV. NEW FINANCIAL GUIDELINES

V. PATT CLOSING
